BGCAFFE Asset Monthly Payout
June 30, 2014, 06:58:48 pm

Quote

We will be posting our monthly Asset payouts here. The payouts will be done on the last day of each month in the evening GMT +2.

For the month of June the calculations are shown below, we were a little bit short of our target however it was a good month. Planning has began for the new shop, we will be posting details about it during the month of July. We are all very excited about how well the assets launch has gone, with just over half being bought in the first month. Thank you all!

Just a note on small asset holder accounts, we will not be transferring the amount until a balance of 5NXT has been accumulated, this is so the transfer fee does not wipe out the payment. You can always buy additional assets to speed this process up 🙂
